## GOVERNMENT EXAMINATIONS.

## SPECIAL TEST FRAMINATIONS—OCTOBER 1917.

## NOTICE TO CANDIDATES FOR THE PRACTICE TEST.

The following instructions are published in order that candidates may know what is expected of them in this test:—

*Instructions to Candidates.*

The object of a prize is that any one who has not time to read the original correspondence may, by reading the prize, be put in possession of all the leading features of what passed.

2. The candidate should begin by reading the whole of the correspondence carefully through without writing anything, so that he may clearly understand what passed and be in a position to decide what are the more heads under which the important facts should be arranged. He should then read through the papers again marking what is important.

3. The prize should begin with a brief and brief introduction to the subject under treatment. This should be followed by a narrative in the past tense containing a brief and clear statement of the contents of the correspondence, and in the order of the papers not even necessarily in chronological order, but in logical order. An abstract of every paper in the correspondence or an index of its contents is not a prize.

4. The contents of a prize are—

- (1) to contain all that is important in the correspondence and nothing that is unimportant;
- (2) to present this in a readable and concise shape, expressed as intelligibly and distinctly as possible;
- (3) to be as brief as is compatible with completeness and clearness;
- (4) to present a strictly accurate and logically connected statement of the contents of the correspondence.

No candidate can expect to pass who puts any one of the more important points; words will be deleted if unimportant points are included or if facts are repeated unnecessarily; e.g., it is not necessary to give the date of every paper in the correspondence and the full name and designation of the writer or signatory of every letter; and if a fact is repeated in different papers it need not generally be stated more than once in the prize.

5. Grammar, spelling, style and handwriting will be considered in judging merits; but it must be remembered that mere excellence in composition will not compensate for inaccuracy or incompleteness in the presentation of the facts of the correspondence.

## ACCOUNT, JAIL AND REVENUE TESTS AND OTHER SPECIAL TESTS

*Notes.*

Candidates should bring their own books with them for the purpose of answering these of the special papers for which the use of books is allowed.

In the case of the Account and Jail Tests, the use of the Civil Account Code and its index will be allowed, and in the case of the former and the use of the following books also will be allowed, viz., (1) an Introduction to Indian Government Accounts, (2) an Introduction to Indian Government Audit, and (3) the Civil Service Regulations.

In the case of the Revenue Test (Higher and Lower grades), the following books allowed by the Department, Government Press, may be used by candidates in the examination hall:—

- |                                   |                         |
|-----------------------------------|-------------------------|
| (1) Deans's Schooling Orders,     | (5) Income-tax Manual,  |
| (2) Revenue Settlements and Acts, | (6) Kistna Manual, and  |
| (3) Village and Taluk Manuals,    | (7) Special Funds Code. |
| (4) Stamp Manual,                 |                         |

In the case of the Civil Judicial Test, and the Criminal Judicial Test (Higher and Lower grades), no books need not necessarily be Government publications.

Notes 1.—The use of books containing commentaries will not be permitted, but notes made by candidates in their books will not be objected to, if they contain merely of corrections, agreed notes or generally any references made for the purpose of facilitating study.

Note 2.—The use of galleys, signals, dictionaries, etc., will not be allowed.

NOTE: ST. GEORGE'S BARRIERS SUPPLEMENT [Oct. 28, 1917.]

The Hon'ble Member Sir MANSURU CHANDRA KHAJA asked:—

1. "(a) Is it a fact that the incidence of income of the municipalities in Bengal is much lower than in most other portions of India?"

(b) If so, is that largely due to the comparatively small grants received by the Bengal municipalities from the Government of Bengal?"

(c) What are the considerations that determine the amount of Government grants to municipalities in such provinces?"

The Hon'ble Sir C. BANERJEE SAHU replied:—

"(a) If by the expression 'incidence of income of municipalities' is meant incidence of income per head of population, then the answer lies in the affirmative, as far as other provinces in India are concerned, with the exception of Bihar and Orissa. Any comparison however based upon these figures is apt to be vitiated by variations in the size, character and wealth of the towns which is different provinces are classed as municipalities.

(b) It is impossible to give any satisfactory answer to this question, because the system of making Government grants to municipalities differs in different provinces, e.g., a grant to the province is one, provided the object wants is supplied for a municipality through the Provincial Public Works Department, in another case the subsidy may be handed over to the municipality for the carrying through of the work.

(c) The Government of India have not the material before them to enable them to answer this question. But information might be obtained by questions in the Provincial Legislative Council."

The Hon'ble Dr. TAT BANERJEE SAHAI asked:—

2. "(a) Is it a fact:—

(i) that the Chief Commissioner of District called Miss Gnanani, the Lady Superintendent of the Indraprastha Hindu Girls' High School, D.D. Nua Pabna, and the Honorary Secretary of that school in one hour and then interview each separately in Miss Gnanani's association with the House Rules League, Delhi, and told her that unless she withdrew from the League he would withdraw his sympathy from the school;—

(ii) that the Committee of the school decided not to divorce Miss Gnanani; and

(iii) that Mr. Johnston, the Personal Assistant to the Chief Commissioner, wrote a letter to the Assistant Secretary of the school in which he said: "As you are no doubt aware from the communications which have passed between your Honorary Secretary and the Chief Commissioner on the subject, the question has been held in conference for such period as Mrs. Gnanani, the Lady Superintendent of the school, wishes to set as Honorary Secretary of, so to take on active part in the management of the Delhi branch of the House Rules League?"

(c) If so, will Government be pleased to state the amount of the municipal grant and any other aid given to the school and withheld from it now, the number of the girls reading in the school as well as the date on which the order withdrawing such aid was passed, and the year when the school was established?

(d) Will Government be further pleased to state whether the Chief Commissioner of Delhi has acted in this matter in pursuance of any general policy of the Government of India or whether he has acted upon his own responsibility?"

The Hon'ble Sir WILLIAM VERNON replied:—

"(a) (i), (ii) and (iii) (The items are substantially as stated. For further particulars the Hon'ble Member is referred to the answer given to a question put by the Hon'ble Mr. CHANDRA on the same subject on the 24th September.)

(b) The school was established in 1884. As regards the amount of grant-in-aid and the number of pupils the Hon'ble Member is referred to the information given in reply to the question put by the Hon'ble Mr. CHANDRA on the same subject.

(c) The Chief Commissioner, Delhi, did not act in pursuance of any general or particular instructions of the Government of India but on his own responsibility."

The Hon'ble Sir HENDRA D. N. PILLAI, asked:—

3. "(a) Are British soldiers in Government employ on military duty in the United Kingdom paid only the ordinary pay due according to their rank in the Army, or are they paid military or militia pay whichever is higher?

(b) If there is any difference in the latter position from that obtaining in the United Kingdom in that respect, will Government be pleased to state the reasons for that difference?"

His Excellency the Chief Commissioner of Madras replied:—

"(a) Civil servants and other Government employees serving in the Army in the United Kingdom receive their military pay as for the ordinary rank and allowances through their civil departments direct from India and pay less army pay and many separate allowances.

(b) Government servants in civil employ in India who join the Indian Army Reserve of Officers receive, while serving with the Indian forces, salary at civil rates, according to the next higher rate, or military pay and allowances, whichever is greater; while employed without they receive military pay and allowances of such rate and allowances as they receive.

Government servants in civil employ in India who enlist in the regular army receive wages in which reserve, in addition to army pay and allowances, paydays less pay to the extent of the privileges before due, and thereafter the full regular pay of their own appointments.

The method of paying civil servants on military duty at home was not taken into consideration when the rules for Government servants in India were framed, though as far as such officers serving in the I.A. & C. in India are concerned, there is no actual difference between the position at home and that in India.

The rates of pay were fixed by the Government of India at the beginning of the war with due regard to the prevailing conditions, which rates in many respects entirely differed from those in the United Kingdom.

The Hon'ble Sir HENDRA D. N. PILLAI, asked:—

4. "Will Government be pleased to lay on the table a statement showing the number of individuals and firms, British and Indian separately, to whom recommendations of various kinds have been made?"

directed for purposes of industrial development, from 1st January 1913 to 30th June 1917, and the nature and terms of the respective concessions so granted?"

The Hon'ble Mr. GUNNAY replied:—

"Two statements furnishing the information required by the Hon'ble Member are laid on the table."

The Hon'ble Mr. MAMMONE ARI JERAM asked:—

A. "a) Will Government be pleased to state what is the result of the enquiries made into the cases of Mahomed Ali and Shamsul Ali?"

(b) Do Government propose to release them?"

The Hon'ble Mr. WILLIAM VERNER replied:—

"Provisions under the Defence of India rules were imposed upon Messrs. Mahomed Ali and Shamsul Ali on merely for such methods of political agitation, but because they freely expressed and presented sympathy with the King's cause, thus endangering the public safety. The Government of India have made further enquiries regarding these persons and in a careful consideration of the Indian press and opinion ascertained, and on a re-examination of previous papers, the Government of India are not satisfied that the attitude of these persons has materially changed in this respect, or that these conditions can safely be removed."

The Hon'ble Mr. MAMMONE ARI JERAM asked:—

A. "a) Has any correspondence passed between the Government of India and the Secretary of State for India relating to the situation of the Indian Militiamen Board?"

(b) If so, will Government be pleased to place the correspondence on the table?"

The Hon'ble Mr. WILLIAM VERNER replied:—

"a) The answer is in the affirmative."

"The correspondence" asked for by the Hon'ble Member is laid on the table."

#### GOLD IMPORT BILL.

The Hon'ble Mr. WILLIAM VERNER:—"My Lord, I now propose to introduce a Bill to provide for the acquisition of gold imported into British India."

The motion was put and agreed to.

The Hon'ble Mr. WILLIAM VERNER:—"My Lord, the Bill, I have already leave to introduce, a copy of which is already in the hands of Members, provides for the acquisition by the Government of India of gold imported into British India. This is an emergency enactment intended to continue, during the war and for six months thereafter, the powers obtained by an earlier Bill, No. III of 1917. The general reasons which make it necessary for us to take the powers in question were fully explained in the House Government House on the previous evening, and I think, well known to Honorable Members. Briefly, it may be said that our object is not in any way to check transactions of gold in India, but to ensure that such gold as is imported is used in the most effective way possible for strengthening our currency position. We have already acquired £5 million of gold in this way, and we hope that by the end of the year we shall be able to add further to our stocks of this metal. The gold which we acquire is placed in the Reserve Currency Account, where it remains the metallic backing is not made issue."

"The provisions of the Bill, however, differ from those of the Bill of 1917 in one important respect, namely that whereas in the Schedule to the Ordinance which the acquired gold should be paid for were laid down, the Bill provides that gold acquired will be paid for at value prescribed by the Governor-General in Council. As a consequence of the recent increase in the rate at which the Secretary of State sells his Central drafts, he has decided that a modification should be made in the value payable under the schedule to the Ordinance for imported gold. As was explained in a Press Communication issued on the 19th instant, while we continue to sell immediate telegraphic transfers at 1s. 10d. per rupee, the rate payable for gold will be Rs. 14-8 per tola weight in the case of sovereigns and in the case of other gold or bullion, Rs. 14-2 per tola weight of fine gold. These rates were fixed by the Secretary of State in consultation with the authorities responsible for the maintenance of the central gold reserves of the Empire with the object of securing the greatest possible advantage to India without conflicting with general Imperial interests; and they are so calculated, making due allowance for all expenses incidental to shipping gold, that neither presents nor demand will attach to transactions of gold as compared with Central transactions of printed notes. In the event of its being necessary for the Secretary of State to make further changes in his Central Bill, similar corresponding alterations will have to be made in the rates payable for imported gold, and it would therefore be desirable to make it possible to follow the arrangement adopted in the Ordinance of buying down deferred notes by a Schedule. It is intended, however, in order to avoid disturbance of existing contracts, or hardship to those who shipped gold to India on the strength of the terms of the Ordinance, to pay for all gold shipped up to and including the 31st September of the year prescribed in the Ordinance, and on account given to this effect was made in the 19th instant. Future shipments will be paid for at the revised rates mentioned above, which we shall not frantically protest when this bill passes into law. Should it become necessary to make any further alterations in the rate, it is the intention to draw a further ordinance. In the case of gold to transit at the time when such alterations are made."

"It is perhaps desirable that I should take this opportunity to make it quite clear that the rates prescribed under this Bill will relate purely to gold acquired for currency purposes, and that there is no intention of altering the interest payable at 4 to 12 of the securities and the rupee. Nor will such persons as are applicable in the case of sovereigns shipped in the Government of India from an Australian mint, which will merely carry on the receipt of gold for the Government of India, lose gold supplied by them as their account. They will however, apply to gold bullion and foreign gold tendered in Australia for recognition by the Government of India, unless such gold was shipped to Australia on a through bill of lading before the 28th instant, in which case it would be allowed the same treatment as if it had been shipped to India before that date."

"The subject is then closed."

"I need only add that the original intention was to introduce this Bill at the commencement of the present session, so that it would not have been necessary for me to ask the Council to take the Bill into consideration until its passage in the future. It has, however, not been possible to settle the exact time of its introduction in view of the introduction of the Bill as an earlier date, on the basis on which important aid should be paid for has been under discussion with the Secretary of State, and has only recently been settled."

"My Lord, I now introduce the Bill and move That the Council to suspend the Rules of Business to admit of the Bill being taken into consideration."

The Hon'ble the President:—"I suspend the Rules of Business."

The Hon'ble Sir WILLIAM VERNER:—"My Lord, I beg to move that the Bill be taken into consideration."

The motion was put and agreed to.

The Hon'ble Sir WILLIAM VERNER:—"My Lord, I beg to move that the Bill be passed."

The motion was put and agreed to.

#### PRESIDENTY SMALL CAUSE COURTS (AMENDMENT) BILL.

The Hon'ble Sir WILLIAM VERNER:—"My Lord, I beg to move that the Bill further be amended. The Presidentcy Small Cause Courts Act, 1913, has taken into consideration. I explained the object of this Bill when I asked for leave to introduce it and I have received no criticism and no motion of amendment is offered to it. I conclude therefore that the Bill has met with general acceptance and that it is not necessary for me to take up the time of the Council by any further statements regarding it."

The motion was put and agreed to.

The Hon'ble Sir WILLIAM VERNER:—"My Lord, I beg to move that the Bill be passed."

The motion was put and agreed to.

#### REFERRING AND AMENDING BILL.

The Hon'ble Mr. G. R. LOWMEYER:—"I beg to move, My Lord, that the Bill be amended certain amendments and to amend certain other amendments be taken into consideration. The Bill is substantially approved in the original motion of various sections. We have received no amendments and no criticism. I therefore move, My Lord, that the Bill be taken into consideration."

The motion was put and agreed to.

The Hon'ble Mr. G. R. LOWMEYER:—"I now beg to move, My Lord, that the Bill be passed."

The motion was put and agreed to.

#### BILL TO AMEND THE CODE OF CRIMINAL PROCEDURE AND THE COURT-FEES ACT.

The Hon'ble Sir WILLIAM VERNER:—"My Lord, the Bill to introduce which I now ask for leave, has already been before the Council in a modified form. In March 1914, Sir S. Gordon Parnock introduced a Bill to amend the Criminal Procedure Code and the Court Fees Act. This Bill was considered in substance with the usual practice to Local Governments and others for opinion. When six valuable opinions were received it was found that the Bill originally introduced was open to criticism in various respects, and the Government of India decided that the best method of dealing with the question was to appoint a select committee to examine the various criticisms received, and for that purpose a Committee on which I serve as the legal element was very strongly represented, consisting of the Hon'ble Mr. Lowmeyer, the Hon'ble Mr. Justice Fagge, the Hon'ble Mr. Kameswari Das, the Hon'ble Mr. P. C. Ghosh and the Hon'ble Mr. James Wallace, was appointed. They examined and reported the Bill very thoroughly in the light of the various criticisms, and in many additions and changes were made that the Government of India thought it would be better to abandon the Bill originally introduced, and to place the revised Bill before the Council as a new measure. If leave is introduced the Bill is given, it will be amended to Local Governments and ample opportunity for discussing the various proposed amendments of the law will be afforded when the motion is made to refer the Bill to a select Committee. I therefore do not propose at this stage to deal with the merits or details of the Bill at all, nor do I think that I could usefully add anything to the value and weight of the report which is an assurance to the Bill. That report is a very full one and discusses in detail the reasons for the various changes."

"I now move, My Lord, to introduce the Bill further to amend the Code of Criminal Procedure, 1913, and the Court Fees Act, 1874."

The motion was put and agreed to.

The Hon'ble Sir WILLIAM VERNER:—"My Lord, I now introduce the Bill and move that the Bill, together with the Statute of Uganda and Kanara relating thereto, be published in the Gazette of India in English, and in the Local official gazettes in English and in such other languages as the Local Governments may think fit."

The motion was put and agreed to.

#### TRANSFER OF PROPERTY (VALIDATING) BILL.

The Hon'ble Pandit HARI MOHAN MALAVIA:—"My Lord, I beg to move that the Report of the Select Committee on the Bill further be amended the Transfer of Property Act, 1913, be taken into consideration. The Council will remember that when the Select Committee presented their Preliminary Report on the 12th February 1917, they had agreed that it was necessary to elaborate certain provisions which had been contained under the provision which obtained previously in the United Provinces, whereby a witness attested the execution of a deed after receiving a previous acknowledgment from the grantor that he had put his signature to the deed, though he had not actually signed it. The question that was then left over for further consideration was whether claims which had been already debated on the ground that the attestation so made was not made in

conformity with law as was decided by their Lordships' Privy Council, should be reversed. The matter was referred to the United Provinces Government, and after considering the opinion of the United Provinces Government, the Rajast Committee has recommended that certain claims should be reversed, namely claims which had been wholly or in part dismissed, rejected or withdrawn after the 30th day of July 1911, and I allow the recommendation of the Rajast Committee in a court of first instance, to ensure unity of the fact that some persons who expected to obtain such a decision or settlement as a witness on having received before signing, however, through a general acknowledgment from the Government of his signature, did not see the material claim. Consequently it has been provided in the Bill, my Lord, that unless the said person from the recommendation of the Rajast Committee may be made for the satisfaction of such a claim. But in order to guard against any injury being done to witnesses for whom in good faith, it has been provided that the court to which such an application is made, shall have discretion to refuse the restoration of any claim if it thought that such a restoration would prejudice the rights of any transferee for value in good faith who may have made since the 30th day of July 1911, that is since the date of the Privy Council's decision in question. The Rajast Committee also felt that in the event of a decree being passed upon such an application for restoration, the person against whom the decree would be passed, should not be compelled to pay interest at the contractual rate up to the date of the final decree that may be passed against him, but that interest should be allowed at the contractual rate only up to the date of the original dismissal, rejecting or withdrawal of such claim and for a period of six months thereafter, and that any interest which may be allowed after that period and until restoration should be at the rate of 6 per cent. The Rajast Committee have also thought it fit to provide that cases of fact which had been already decided by a Court, in which a claim was dismissed, rejected or withdrawn at the beginning, should not be re-opened if they had been found and finally determined by it. These provisions have I now mentioned to you to guard against any injury being done to any party concerned in the restoration.

"The Bill as it now stands, my Lord, provides for two matters. It provides that the claims of honest creditors should not be defeated merely by means of a law provision having been followed by the latter of all claimants. It also provides that no injury shall be done to debtors by means of this enactment and that they shall be dealt with as fairly as they would have been dealt with if this Privy Council ruling referred to above had not come into force. With these remarks I recommend the Report of the Select Committee to the consideration of the Council, and I hope it will be accepted."

"The Hon'ble Mr. TIL CHANDRA KHAN:—My Lord, coming as I do from the provinces to which the Bill refers, I think it is necessary that I should state a few facts with regard to the local conditions and circumstances. So far as clause 1 of the Bill is concerned, I do not think that I shall be justified in making any objection to that clause. But I want to state that although I have agreed to the Report of the Select Committee, my mind is not free from a doubt as to the efficacy of clause 1 of the Bill. My Lord, I am perfectly well aware that the Local Government has assigned the duties, but as the Bill is in a manner like the law was content for that the High Court, which ought to have better than the Local Government, has not intervened. My Lord, since 5 of the Bill provides for the restoration of suits which have been dismissed wholly or in part. Well, we doubt there are certain provisions added to clause 3 which are of a saving nature, and if I remain thus opposing clause 3, it is only because my doubts are not sufficiently strong to justify me in going against the clause which has been so carefully put forward by my Hon'ble friend Pandit Kishore Mohan Malaviya and which, in a certain extent, has realized the request of the Local Government. I want say that in rejecting this Bill, my mind is not free from doubt, and I will give only a qualified support."

The motion was put and agreed to.

The Hon'ble Pandit Kishore Mohan Malaviya:—My Lord, I beg to move that the Bill be accepted be passed."

The motion was put and agreed to.

The Hon'ble the President:—It only remains for me to state this Session and express the hope that Hon'ble Members will carry away the desire and stimulus of forwarding rapidly and judiciously the work which they wish to place later before Mr. Montagu and myself.

"This is the first session on which Hon'ble Members other than those of a purely representative nature have been accepted for discussion at the Privy Council. I think the discussions which have taken place have not been without value, and certainly points have been argued with great force and ability."

"But before I formally declare the sitting closed, I should like to make one or two remarks on the proceedings of this past session. I have been absolutely amazed that the law as a whole has been so quickly given a lead to India, and anyone can see that the Government have been surprised in their endeavour to discuss even the most contentious questions with studied moderation."

"Still it is in the clash of debate that great issues are fought, and so far as is concerned with the dignity of the Council, I would not for one moment wish to see our discussions have shown of their force and vitality. Our proceedings would be hollow and unreal if Hon'ble Members, official and non-official, were not free within the prescribed limits of orderliness to express in temperate language their deliberative forces and honestly held. But I would remind them that this is a matter in which there must be give and take."

"I look to this to India the highest standard of mutual dealing among men engaged in public affairs, even though their point of view may be different, and in that connection we do all honour to the Lieutenant-Governor of the Punjab for his generous advice on our proceedings here at the very outset. It was the act of a strong man and an honest man, and most commendable and admirable."

"I would not helplessly after hearing Sir Michael O'Dwyer's remarks that his generous attitude gave to our Hon'ble Member of the Council on that occasion an opportunity of displaying equal generosity in respect of a remark publicly made with reference to Sir Michael O'Dwyer. The opportunity has not yet been taken, but I am glad to hear that the Hon'ble Member in question proposes to withdraw that remark as an early session."

## HIS EXCELLENCY THE PRESIDENT'S SPEECH.

"Let me begin in other words. I have observed that several events have called forth misleading statements of the relations of the Government of India to the Secretary of State on the one hand, and towards Local Governments on the other. Since I have held the Secretary's portfolio with the Secretary of State, both with Mr. Chamberlain and with Mr. Montagu, have been most careful, and both the statements have been uniformly cautious as to what we had in common with the Government of India, and I think I may think that my own attitude towards the body of Local Governments has been precisely similar. In this connection let me mention the case of Mr. Bennett. We, as a Government, could surely have shown little faith in the policy recently made public or in the appeal for standard and co-operation which I made in my opening speech of this Session, if we had adopted any other course than that which we have followed. Previous to the announcement of that policy the position was somewhat difficult. We have gladly taken the opportunity that has now offered itself for speaking a new chapter. The House Members informed you on Monday that Mr. Bennett has proved her word to me that she will, as regards its character, be a safe atmosphere for Mr. Montagu's word. I accept Mr. Bennett's word, and I am sure her remarkable strength will be directed in the way she has indicated."

"That, Gentlemen, while our policy has been satisfactory, it could not be supposed we have shared in any degree our attitude towards the House of Assembly. The prime duty of Government is to preserve order; in time of war it is a prime duty; it is a duty which the Indian Government will not for one instant neglect."

"But let us look forward rather than back. *Après moi*. We are no longer groping in the dark. We have no objectives given to us, and we want the help of all to clear our course to that objective."

"Do not let us then be drawn aside by ephemeral accidents, which have lent themselves to misconception, from the great task which we all have in hand. Every incident and claim will have an opportunity of putting their views before Mr. Montagu and myself, and provided there are no clashes with basic principles of the policy prescribed by His Majesty's Government, they will receive sympathetic consideration. Let me assure those non-official Members who represent European commercial interests, in this Council, that those important interests will of course be fully considered. Especially, I am sure Indian and European alike recognize the historic position of the British community in India, and the debt which India owes to its education and its energy. And no scheme of reform which was based could be based on injustice to the British or to any other community. We want all the best minds and the co-operation of all classes of the community. I will not say more of that; but, for does not the time itself appeal to us all, whatever our race or creed or class, to co-operate in the spirit of Montagu's lines, —"

"Then pass war for a party,  
Then all wars for the State!"

"In declaring the Session closed, I bid Hon'ble Members good-bye and wish them all a safe journey to their homes."

The Council adjourned *non est*.
